

Quality Management Software

Audit Management

Improsys QMS - Audit Management - Features

Simplicity and User friendliness.

Helps to improve your daily routine work and pending task.

Improves your productivity by avoiding the repetitive task.

All relevant data at ease. Faster data retrieval.

Improsys QMS - Audit Management - Features

Designed for manufacturing environment.

No jargons. Simple language used.

Knowledge of Google Search and Email is just sufficient to operate.

Only business knowledge required to operate.

Improsys QMS - Audit Management - Features

Responsive and personalized interface designed for end users

Customization done to suit business needs.

Latest technology of Visual Studio 2017 & .NET framework 4.0 used.

Supports Email, SMS and WhatsApp connectivity.

Compatibility with Excel, Word and PDF.

Follows IATF 16949 and ISO 9001 standards

Software is secured at an access level and data view level.

Multi Language Support

Flexible Integration

API - Integration:

Fast WMS Software is very flexible for integration and can exchange data with various platforms such as –

Power Automate
Microsoft Power Automate –

Audit Management – Workflow

Audit Management – Types of Audits

Customer Audits

Internal Quality
Audits

Supplier Audits

Process Audit

Product Audit

Improsys QMS - Audit Management - Solutions

PAIN AREAS

Employees identified as auditor might not fit into required criteria

Extra Manpower for Data Management

Improper Audit Planning

SOLUTIONS

Auditor qualification. Only allows qualified auditors to be planned for a particular audit type.

Pre-filled 450+ devices and templates ready to use for audit to reduce dependency for data management.

Intuitive and Calendar view for audit planning for admins in order to plan and schedule the audits

Improsys QMS - Audit Management - Solutions

PAIN AREAS

Difficulty in accessing past database

Detailed reporting preparation adding to non-productive time and mistakes.

Lack of monitoring of NC's and verifications

SOLUTIONS

Retrieve past audit data within minutes from web portal anytime.

Detailed and accurate audit report generation within minutes

NC follow-up dashboard and notifications via email / sms / WhatsApp to respective contacts for follow-up of NC's

Auditor Management

- **Auditor qualification.**
Only allows qualified auditors to be planned for particular audit type.

Pramod Bodne

U Patel

Audit Management – Audit Execution – NC Management

- Dashboard wherein the auditor can see the NC's marked during the audit
- Facility to add the corrective action against Non-compliances.
- Facility to add the causes also against Non-compliances.
- Facility to view the data with various filter criteria.
- Facility to define due date of corrective actions
- Facility to make follow-up alerts for corrective actions
- Facility to approve corrective actions

Features of Audit Management :

- Facility to create multiple plants
- Facility to create Auditor Master
- Facility to upload documents related auditor competency such as certifications, Education qualification, etc.
- Facility to define due dates for documents related to competency
- Facility to define questions related to audits
- Facility to fetch questions from previous audits for checking during next audit schedule
- Facility to define schedules for audits
- Facility to view auditor schedules prior to planning to audit
- Facility to approve audit plan

Features of Audit Management :

- Opening Meeting and Closing Meeting Report format
- Facility to enter the audit results via mobile screen
- Facility to upload evidence against the questions during audit
- Facility to release audit report
- Email of audit report to auditing team
- Facility to define action plan for the non-conformances found during audit

Introduction

Improsys is India based productivity and quality solution provider working in the domain of manufacturing, supply chain management and logistics sector. Improsys is headquartered in city of Pune, Maharashtra state is providing business services in the areas of business consulting, corporate training and software development with special focus on productivity, quality, delivery improvements resulting in bottom line improvement for clients and improvement in client customer satisfaction.

With more than 10 years of experience in serving varied satisfied clients ranging from SME to MNC organizations, Improsys client base is located in different parts of the globe. In multiple countries with multiple languages, Improsys team has vast experience in fine tuning system solutions for localised business and cultural requirements.

Team Improsys strives and works with business philosophy of:

"To consistently create value for our customer's stakeholders, by providing cost effective improvement solutions in systems which enable our customers to achieve excellence and sustainable competitive edge, continuous improvement of client organizational prosperity."

Improsys - Introduction

- Recognized as a key player in global inventory and manufacturing market by various independent market research websites across US and Europe.

- Providing solutions across globe to esteemed customers such as
